

You've mapped your Customer Profile. What to do from here? Here are six ways to trigger your next Value Proposition move.

#### Can you...

## **Address more jobs?**

Address a more complete set of jobs, including related and ancillary jobs.

#### Switch to a more important job?

Help customers do a job that is different from what most value propositions currently focus on.

#### Go beyond functional jobs?

Look beyond functional jobs and create new value by fulfilling important social and emotional jobs.

### Help $\alpha$ lot more customers get $\alpha$ job done?

Help more people do a job that was otherwise too complex or too expensive.

### Get a job done incrementally better?

Help customers better do a job by making a series of microimprovements to an existing value proposition.

# Help a customer get a job done radically better?

This is the stuff of new market creation, when a new value proposition dramatically outperforms older ways of helping a customer get a job done.
